Patent Search   Patents **1 - 10** of **649** on encode network protocol. **(0.24** seconds)

Network addressing scheme encoding communication channel information
US Pat. 5799016 - Filed Jan 11, 1996 - U S West, Inc.
(ii) SNMP (Simple **Network** Monitoring **Protocol**), a standardized internet ...
of this **network** to decode and **encode** X.25 packets from and to the **network** 54, ...

Local area network protocol analyzer
US Pat. 4792753 - Filed Feb 19, 1987 - Nippon Board Computer Co., Ltd.
A local area **network protocol** analyzer as set forth in claim 1 further ...
cable and a code/encoder to **encode** said packets before being sent back thereto. ...

Technique for cancelling common mode switching noise to achieve reduced error rates in a local area network
US Pat. 5555277 - Filed Dec 1, 1993 - Datapoint Corporation
The transceiver 60 is connected between a **network protocol** controller 62 and a
... The 16 distinct signals or signal states **encode** all 16 possible binary ...

Protocol for network having a plurality of intelligent cells
US Pat. 4941143 - Filed Nov 8, 1988 - Echelon Systems Corp.
... **encode** lsl (TOS) lsr (TOS) shift left by 4 shift left by 4 swap tos(NOP) ...
is commanded to **encode** this data, the resultant six bits will be coupled ...

Optical protocols for communication networks
US Pat. 5519526 - Filed Oct 21, 1992 - California Institute of Technology
... the optical **protocol** system 55 of this invention is to **encode** the optical data
... with a spatial light modulator for **network protocol** reconfiguration. ...

Information transmission system and method of operation
US Pat. 5446759 - Filed Aug 26, 1993 - NTP Incorporated
34, **network** switch 602 selects an appropriate encoding the mobile A initiates
the data message call by alerting module to **encode** and relays the information ...

System for wireless transmission and receiving of information and method of operation thereof
US Pat. 5745532 - Filed Jun 2, 1995 - NTP Incorporated
84 the wireline telephony **network** PSTN through the **network** cast of the ...
when the **protocol encode**/decoder of **network** switch 602 by dialing PC 606 answers, ...

System for wireless transmission and receiving of information and method of operation thereof
US Pat. 5710798 - Filed Jun 2, 1995 - NTP Incorporated
The E-mail service 608 via the PSTN through the telephone offices 604 routes the
call to the **protocol encode**/decoder of **network** switch 602 by dialing 40 the ...

Protocol for network having a plurality of intelligent cells
US Pat. 4947484 - Filed Nov 8, 1988 - Echelon Systems Corporation
If the ALU is commanded to **encode** this data, the resultant six bits will be

| multiple encode network protocol | Search Patents | |

Filing date   ○ Return patents filed anytime
◉ Return patents filed between Jan ▼ 1776 ▼ and Jan ▼ 1996

Patent Search   Patents **1 - 10** of **535** on **multiple encode network protocol**. (**0.34** seconds)

Network addressing scheme encoding communication channel information
US Pat. 5799016 - Filed Jan 11, 1996 - U S West, Inc.
(ii) SNMP (Simple **Network** Monitoring **Protocol**), a standardized internet ...
of this **network** to decode and **encode** X.25 packets from and to the **network** 54, ...

Optical protocols for communication networks
US Pat. 5519526 - Filed Oct 21, 1992 - California Institute of Technology
Thus, in addition to accommodating **multiple** communica-tions within a single
optical **network** via the encoding/ decoding process, this feature allows ...

Spread spectrum communications system for network
US Pat. 5574748 - Filed May 22, 1995 - Intellon Corporation
Another embodiment includes **multiple** sub-sym-bol length chirps to **encode** the
symbols. ... In the latter case, the **network protocol** rules provide for the ...

Technique for cancelling common mode switching noise to achieve reduced error rates in a local area network
US Pat. 5555277 - Filed Dec 1, 1993 - Datapoint Corporation
The transceiver 60 is connected between a **network protocol** controller 62 and a
... The 16 distinct signals or signal states **encode** all 16 possible binary ...

Information transmission system and method of operation
US Pat. 5446759 - Filed Aug 26, 1993 - NTP Incorporated
The mobile A mobile A to the base station 1 through the **protocol** data transceiver
enters the message and then initiates encoder/decoder of the **network** ...

System for wireless transmission and receiving of information and method of operation thereof
US Pat. 5745532 - Filed Jun 2, 1995 - NTP Incorporated
84 the wireline telephony **network** PSTN through the **network** cast of the ...
when the **protocol encode**/decoder of **network** switch 602 by dialing PC 606 answers, ...

System for wireless transmission and receiving of information and method of operation thereof
US Pat. 5710798 - Filed Jun 2, 1995 - NTP Incorporated
The E-mail service 608 via the PSTN through the telephone offices 604 routes the
call to the **protocol encode**/decoder of **network** switch 602 by dialing 40 the ...

System for wireless transmission and receiving of information through a computer bus interface and method of operation
US Pat. 5717725 - Filed Feb 21, 1995 - NTP Incorporated
The E-mail service 608 via the PSTN through the telephone offices 604 routes the
call to the **protocol encode**/decoder of **network** switch 602 by dialing the ...

Spread spectrum communications system for networks
US Pat. 5090024 - Filed Aug 23, 1989 - Intellon Corporation

Patent Search

Patents **1 - 10** of **57** on **multiple encode "network protocol"**. (0.27 seconds)

Network addressing scheme encoding communication channel information
US Pat. 5799016 - Filed Jan 11, 1996 - U S West, Inc.
... wherein a proprietary **network protocol** such as "URP" by Datakit is used. ...
to decode and **encode** X.25 packets from and to the network 54, respectively. ...

Spread spectrum communications system for **network**
US Pat. 5574748 - Filed May 22, 1995 - Intellon Corporation
Another embodiment includes **multiple** sub-sym-bol length chirps to **encode** the
symbols. ... In the latter case, the **network protocol** rules provide for the ...

Technique for cancelling common mode switching noise to achieve reduced error rates in a local area **network**
US Pat. 5555277 - Filed Dec 1, 1993 - Datapoint Corporation
The transceiver 60 is connected between a **network protocol** controller 62 and a
... The 16 distinct signals or signal states **encode** all 16 possible binary ...

Spread spectrum communications system for networks
US Pat. 5090024 - Filed Aug 23, 1989 - Intellon Corporation
The **multiple** sub-symbol length chirps to **encode** the sym- transmit stage 16 is
... In the latter case, the **network protocol** rules uct specific logic 26 ...

Optical protocols for communication networks
US Pat. 5519526 - Filed Oct 21, 1992 - California Institute of Technology
... 55 of this invention is to **encode** the optical data pulses 19b generated by the
... with a spatial light modulator for **network protocol** reconfiguration. ...

Networked telephony central offices
US Pat. 5764756 - Filed Jan 11, 1996 - U S West, Inc.
... wherein a proprietary **network protocol** such as "URP" by Datakit is used. ...
to decode and **encode** X.25 packets from and to the network 54, respectively. ...

Multibit amplitude and phase modulation transceiver for LAN
US Pat. 5050189 - Filed Nov 14, 1988 - Datapoint Corporation
The transceiver is connected between a **network protocol** controller 12 and ...
These 16 distinct signals or signal states **encode** all 16 possible binary code ...

Digital test and maintenance architecture
US Pat. 5600788 - Filed Jan 19, 1994 - Martin Marietta Corporation
ANSI/IEEE Standard 802.4 specifies a **network protocol** that allows **multiple** nodes
to coordinate the transfer of data over a single data transfer medium, ...

Media access controller with a shared class message delivery capability
US Pat. 5491531 - Filed Apr 28, 1993 - Allen-Bradley Company, Inc.
... boundaries between pairs of consecutive phy symbols that **encode** a data bit.
